Iowa Certified Installer of Construction Site Pollution Prevention Practices (ICSP3)

Cedar Falls Public Library
524 Main Street
Cedar Falls, IA 50613

REGISTER ONLINE: IowaStormwater.org

The Iowa Certified Installer of Construction Site Pollution Prevention Practices (ICSP3) course is designed for those installing and maintaining erosion and sediment control practices on construction sites.

Program Topics

Regulatory requirements including topsoil will be addressed in this training in addition to the erosion process and basic hydrology. Proper installation of construction site erosion, sediment and velocity control best management practices are presented in connection to Iowa Statewide Urban Design and Specifications (SUDAS) designs and specifications. Practices for prevention of pollution from on-site wastes are addressed. Storm Water Pollution Prevention Plans (SWPPP) essentials will be presented along with review of SWPPP examples. A written ICICSP3 exam is included at the end of the program for those wanting the certification.

The Recertification Process

The recertification process is easy, attend the first half of an ICSP3 training event every 3 years to remain in good standing with the program (no exam at that time).

Course Instructor

Ben Curtis, ISWEP Coordinator
Amy Kay, CSM, Clean Water Manager, City of Davenport

Registration Fees (Lunch Provided)

New Certification: \$150.00

Recertification: \$80.00

ISWEP members should use applicable promo code for discounted rates.

Cancellation Policy

Full refund or credit of registration fee if cancellation notification is received three or more working days prior to event; 50% refund if notice is received less than three working days prior to event and no refund or credit is given for no notification / no-shows the day of event except in extenuating circumstances. Registration is transferable.

General Permit #2 defines qualified individuals as "capable enough and knowledgeable enough to perform the required functions adequately well to ensure compliance with the relevant permit conditions and requirements of the Iowa Administrative Code."

Are you "qualified" or do you have "qualified" personnel or sub-contractors on staff to install and maintain construction site pollution prevention practices?
