Rain Garden Workshop

Learn how to design, install, maintain, or rehabilitate rain gardens! Course includes field demonstrations and hands-on activities. The design will be based on the Iowa Rain Garden Design Manual. Please dress for field work.

Featured Speaker: Rusty Schmidt

Rusty Schmidt a nationally recognized expert and co-author of "Plants for Stormwater Design". Rusty is a Landscape Ecologist that works for Nelson, Pope & Vorhiss in New York. Previously from Minnesota, Rusty will share his Midwest experiences with the design, installation, maintenance and rehabilitation of rain gardens in an urban setting.
