

Title: Senior Environmental Scientist

Category: Environmental Sciences

Location: Ankeny/Omaha

Job Description:

Is improving communities your passion? Do you enjoy partnering with others to develop solutions to complex problems and successfully design and managing projects as if they were your own? JEO isn't just any company. We are a relationship-based company, who cares about people and our clients. We believe quality products and services are important, but people are the cornerstone of who we are. This exciting opportunity will directly contribute to the continued success of JEO.

The Environmental Sciences Team provides expertise and services for all types of regulatory and environmental related projects. Project types include, but are not limited, to permitting, stream and wetland mitigation, mitigation banking, field studies, NEPA, and wetland delineations.

The Senior Environmental Scientist will:

- Oversee all environmental related work within Iowa
- Assess the impacts of projects on biological communities including wetlands, woodlands, prairies, streams, and other communities
- Coordinate with designers to delineate wetlands and avoid or minimize impacts
- Prepare applications for Section 404 permits and 401 Water Quality Certifications
- Coordinate permitting activities with the U.S. Army Corps of Engineers, U.S. Environmental Protection Agency, Natural Resources Conservation Service, U.S. Fish and Wildlife Service, Iowa Department of Natural Resources, and County Conservation Boards
- Develop natural resource management plans

Assignments may require extended periods working, travel, and operating a variety of water and land vehicles.

Qualified candidates are required to have:

- Bachelor's degree in Environmental Science, Fisheries and Wildlife Biology, Natural Resource Management, Ecology, or other environmental degrees
- Sound knowledge of wetlands, wetland regulations, and mitigation banking processes and procedures.
- 5+ years of experience working with natural resources within the Midwest

Preferred:

- Work experience with permit compliance relating to Municipal Separate Storm Sewer (MS4) regulation
- Working knowledge of GIS/GPS systems

JEO Consulting Group, Inc. is an engineering consulting firm with ten offices (8 in Nebraska and 2 in Iowa). JEO offers competitive salaries and benefits including sick and vacation time, flex time, health insurance, employer contributed 401k program, wellness incentives, paid professional licensure fees and memberships, and annual bonus program.
