Iowa Certified Construction Site Pollution Prevention Inspector Training

Waukee Community Center
675 Walnut St
Waukee, IA 50263

REGISTER ONLINE: <http://bit.ly/ICCSPPPI-Waukee>

The Iowa Certified Construction Site Pollution Prevention Inspector (ICCSPPPI) training is an affordable, efficient certification opportunity for construction site inspectors who are responsible for weekly construction site or quarterly MS-4 inspections.

Program Topics

- Erosion process, soils and basic hydrology
- General Permit #2 regulatory requirements
- On-site required documents
- Best management practices for erosion, sediment, velocity control, and good housekeeping
- Stormwater Pollution Prevention Plans (SWPPPs)
- Site inspection procedures
- Issues an inspector may face

Certification Process

Attend ICCSPPI training, pass the written exam and sign the Code of Ethics to become certified. Those that are certified are recognized statewide for their credentials to conduct pollution prevention inspections at construction sites. Your name will also be added to the Certified ICCSPPI database located at IowaStormwater.org.

The Recertification Process

The recertification process is easy, attend the first half of an ICCSPPI training event every 3 years to remain in good standing with the ICCSPPI Program (No exam).

Course Instructors

Pat Sauer, CPESC, CPSS
ISWEP Executive Director

Jenny Corkrean
City of Waukee, Stormwater Inspector

Registration Fees (Lunch Provided)

New Certification: \$150.00

Recertification: \$80.00

ISWEP members should use applicable promo code for discounted rates.

Cancellation Policy

Full refund or credit of registration fee if cancellation notification is received three or more working days prior to event; 50% refund if notice is received less than three working days prior to event and no refund or credit is given for no notification / no-shows the day of event except in extenuating circumstances. Registration is transferable.

General Permit #2 defines qualified individuals as "capable enough and knowledgeable enough to perform the required functions adequately well to ensure compliance with the relevant permit conditions and requirements of the Iowa Administrative Code."

Are you "qualified" or do you have "qualified" personnel or sub-contractors on staff to inspect construction site pollution prevention practices?
